# Design Concept

ServiceMonitoring-Orange

Outline

- MVC

- Java

- Struts2 + Hibernate

- AngularJS

MVC

- rapid deployment

- good Extensibility

- decouples views and models

JAVA

- Internationalization

- Performance

- Programmer Efficiency and Time-to-Market

Struts

- Focus on business logic implementation

- Improve development efficiency.

- Exception handling

- Database link pool management

Hibernate

- Java reflection mechanisms

- Performance very good

- Supports a variety of relational database,

AngularJS

- Dynamic views

- Extensibility
